

Introduction to Online payment system for School fees

JSKL in collaboration with ipay88, a leading payment gateway had developed an online payment system for School fees. This system has been tested and ready to be used now.

Therefore, all billings and payments for tuition and maintenance fees for both School and Kindergarten can be done online anywhere ie. from home or even from Japan which eventually will go paperless and cashless.

The benefits of this online payment system are;

- Safe and Secure because of the cashless payment.
- Amount and bank account of remittance will be preset by school office to minimize errors.
- You need not come to the school office to make a payment.
- No charges impose to parents/ guardian for using this online payment system because it's an exclusive online payment system of ipay88.
- Online payment records will be sent immediately to the school and to you via email. The online payment record can be used as a payment evidence for 3rd parties and it will be recorded in your bank account.

Taking this opportunity, we would like to unify the timing of billing to collect both tuition fees and maintenance fees in the same month. 6 months billing term is no longer available. Our FY2020 billing schedule will be as follows;

Period	Billing Schedule
April to June 2020	July 2020
July to September 2020	August 2020
October to December 2020	October 2020
January to March 2021	January 2021

(Note)

We have already announced new tuition fees for both school and kindergarten in December 2019 in the School website and Japan Club KL's newsletter. Please find enclosed copy of the letter from me for your reference.

Your active utilization of this new online payment system is highly appreciated. Please feel free to contact the school office should you still wish to make payment by cash or cheque.

You will receive invoices via email gradually from 6 July onwards and we sincerely seek your kind understanding and cooperation to fully utilize this online payment system.

Yours Sincerely,

Satoshi Kanda, Principal
Yumiko Matsumoto, Principal of Kindergarten
The Japanese School of Kuala Lumpur
